Career Summary

- 🏢 Company 04/2013 - date
👤 International Coal Network Coordinator

Providing a strategic focus, and coordinating the activities of a global campaign, engaged in building the movement on coal and transitioning to clean energy sources, with an annual budget between \$150k and \$300k per annum. Facilitating international, regional and bi-lateral communications between national campaigns to develop sustainable connections.

KEY ACHIEVEMENTS

- Leading a comprehensive review of the network and a subsequent strategic planning process, encompassing developing new and revised theory of change, governance, manifesto, priorities and approach
Leveraging contacts networks across the globe to proactively build support and drive local campaigns forward, including working
- in partnership to manage fundraising activities that raised up to \$10 million
- Establishing long-lasting links between local campaigners and the international web of support, which includes technical expertise, resources, and funding
- Managing a small grants fund to support local campaign challenges against coal plants, mines and infrastructure, with fully budgetary accountability (up to \$100k per year) and proven success in driving change and improvements
- Successfully managing often conflicting priorities of funders and board members within this complex, informal network structure

- 👤 Independent Campaigner & Researcher 09/2012 - 03/2013

Associate, Company, Sustainable Energy & Climate Change Project (09/2012-03/2013)
• Provided overall leadership and management to 10 staff and a dedicated team involved in research, advocacy and fundraising on nuclear energy procurement; actively involved in managing positive change during this time
Research Consultant, Institute for Security Studies (09/2012-11/2012)
• Actively involved in research, monitoring and capacity building of climate finance governance in Africa
Research & Campaign Consultant, Foundation (08/2012-10/2012)
• Lead researcher, paper author and chair of a workshop on national climate finance governance
Research Consultant, Company (10/2012-11/2012)
• Lead researcher and author of two briefing papers on access of women to climate finance in South Africa, one aimed at women and one for lobbying purposes, and engaged with stakeholders on implementing recommendations
